OBJECTIVES

A self-driven, enthusiastic, and fast-learning UGA Senior majoring in Computer Science seeking an advanced academic opportunity to enhance skills and knowledge in software engineering field in a fast-paced and technologically challenging environment.

PROFILE

A hardworking, diligent, and effective team player, and presently a Senior at UGA. In addition to my recent Software Engineering Internship full-time position with the US Air Force at Robins Air Force Base in GA, I have also worked in various part-time positions through my academic years with the UGA Housing, UGA Bookstore, Super Kroger, and Great Clips. I also have volunteered at many science events such as Science Olympiad and various science summer camps. I am dependable, resourceful, detail orientated, and committed to my duties and responsibilities.

WORK HISTORY

2024 Summer: Robins Air Force Base Software Engineering Intern

Designed, developed, tested, and implemented a new front-end web UI that interfaced with a back-end database for a metadata redaction tool, for documents and images from unclassified to top-secret level material. Utilized HTML, CSS, & JavaScript for the front-end UI with React, Axios, and Express as our library and framework which interfaced with the SQL database in a Node.js runtime environment. Carried out entire life-cycle full-stack web development activities, from front-end web development to the back-end storage of rulesets, and presented to leadership, other development teams, and flight chiefs.

2022 - present: Community Service Assistant at UGA Housing Department

Assisted dorm residents with mail, questions, and requests. Worked with Resident Assistants and the Residence Hall Director to run and maintain the Myers Hall dormitory.

2021 Fall: Event Sales Associate at UGA Bookstore

2021 Summer: Fuel Attendant at Kroger Fuel Center

2021 Summer: Customer Service and Cashier at Great Clips

SOFTWARE LANGUAGES

- ❖ C
- ❖ CSS
- ❖ HTML
- ❖ Java
- ❖ JavaScript
- ❖ JSON
- ❖ NoSQL
- ❖ Python I & II (Georgia Tech certified)
- ❖ React
- ❖ SQL

TECHNICAL SKILLS

- ❖ Agile methodologies
- ❖ AWS
- ❖ Axios
- ❖ Eclipse IDE
- ❖ EMACS
- ❖ ERD
- ❖ Express
- ❖ GitHub
- ❖ GitLab
- ❖ Google Servers
- ❖ Google Suite
- ❖ Grafstate
- ❖ Hadoop
- ❖ Jira
- ❖ Maven
- ❖ Microsoft 365 Business Suite
- ❖ MySQL
- ❖ MySQL Database
- ❖ Node.js
- ❖ NoSQL
- ❖ Notepad++
- ❖ OneDrive
- ❖ React
- ❖ Restful APIs
- ❖ SQL
- ❖ Unix
- ❖ Visual Studio

EDUCATION

- ❖ University of Georgia — Undergraduate Computer Science Major
2021 Fall - present: Senior (Dean's List)
Class of 2025
- ❖ South Forsyth High School — Graduate
International Baccalaureate Diploma Programme Graduate
Class of 2021

EXTRACURRICULARS & VOLUNTEERING

- ❖ Club Archery at UGA: as an Executive Officer
- ❖ UGA Game Builders Club, using Unity (C#)
- ❖ Science Olympiad Outreach of UGA Club
- ❖ Alpharetta Youth Symphony Orchestra
- ❖ Volunteered at: Athens Regional Science Olympiad events as a proctor, Science summer camps as a camp assistant, The Pantry at Meals by Grace Forsyth County as an item assembler, Forsyth County Peer Court as a community/youth advocate
